DEWS 2010 SPEED SERIES ENTRY FORM

1. Defined below are the regulations or the DEWS 2010 Speed Series run by the DEWS Club.
2. You must be a registered member of the DEWS Club to enter.
3. The cost to enter the series is **£15.00p**.
4. Any MSA hillclimb or sprint that you enter can count towards the Speed Series with the best 5 scores to count.
5. Results must be sent to the competition secretary within one month of the event taking place. Final results must be submitted by 1st November 2010.
6. I expect there are many of you who have been to a hillclimb or sprint and wanted to enter, but felt that you did not have a suitable car or that the total costs were prohibitive. You will need to check the MSA Blue Book under Sprints, Hill Climbs and Drag Racing for Competitors' Regulations and any supplementary regulations from the club who is organising the event you are entering, but in very simple terms all you need are the following as minimum for road going cars, with modified cars requiring addition items as defined in the MSA 2010 Year Book:
 - a. A timing strut added on arrival at the event to the front of the car. This can be achieved easily without any damage to the car, see MSA 2010 Year book section 'S' para 10.9;
 - b. Ignition switch label, added by the ignition switch to show the direction to turn the key to "off".
 - c. **MSA** Speed Licence which allows you to compete in speed hillclimbs. This can be obtained by telephoning the MSA at Motor Sports House on 01753-765000 and asking for a competitor's licence application form to be sent to you. A non-race National B licence is £37 per year for events of national B status. This will, in addition, give you a copy of the MSA Competitors Year book, which includes all regulations for all types of events.
YOU DO NOT NEED A MEDICAL WITH YOUR DOCTOR FOR A SPEED LICENCE.
 - d. A helmet to the correct specification. These can be obtained from many sources from about £64 upwards. See MSA 2010 Year book section 'K' para 10.1 to para 10.4
 - e. A pair of overalls to the correct specification. These can be obtained from many sources from about £70 upwards. See MSA 2010 Year book section 'K' para 9.1 to 9.3
 - f. A pair of gloves to the correct specification. These can be obtained from many sources from about £40
 - g. Competition numbers for your car, See MSA 2010 Year book section 'J' para 4.1 to 4.1.8
 - h. Battery earth lead marked with yellow tape, see MSA 2010 Year book section 'J' para 5.14.5
 - i. I would suggest that when you are purchasing your helmet, and overalls, that you take with you the current MSA year book and check the specification and label as defined in the MSA 2010 Year Book is attached before you make your purchase.
 - j. All loose or not required items must be removed from the car on safety grounds, in case they come loose and fly around such as:
Spare wheel, jack, tool kit, plus everything else that is not fixed down e.g. things in the glove, door pockets etc.
 - k. **PLEASE NOTE: IT IS THE RESPONSIBILITY OF THE COMPETITOR TO MAKE SURE YOU & YOUR CAR COMPLY WITH THE MSA CURRENT COMPETITORS REGULATIONS.**
7. **If you are in any doubt, please ask, we are here to help you.**

The classes for the DEWS Speed Series are as follows:

Classes for road going limited modification

- 1) Classic mini up to 1100cc single 1 ½" carb
- 1a) Classic mini up to 1100cc twin carb or injection / or single twin choke
